DEDICATED TO THE HEALTH OF ALL CHILDREN®

Dear Reader,

Updates have been made to *Pediatric Evaluation and Management: Coding Quick Reference Card 2021*.

11/5/2020

In the box titled "CPT E/M Office/Other Outpatient Level of MDM," the examples for **low risk** in the "Risk of Complications/Morbidity or Mortality" column *should be changed* from "Rest and plenty of fluids," "Diaper ointment," and "Superficial wound dressing," to "Diaper ointment," "OTC drug (as directed)," "Minor surgery with no comorbidities," "Physical therapy," and "Occupational therapy."

12/8/2020

Footnote ^c beneath the box titled "CPT E/M Office/Other Outpatient Level of MDM" has been updated. It originally read "^c Each unique test, order, or document may be summed if multiple." It *has been changed* to read "^c Each unique test, order, or document may be summed if multiple. You may not count any laboratory study or test that you separately bill out."

1/5/2021

Footnote * beneath the box titled "Prolonged Office/Other Outpatient E/M Services" has been updated. It originally read "*At the time of publication, *CPT* and the CMS were in conflict w/ regard to when prolonged services (99417) begin. We have presented the timing from *CPT* as part of this publication. For more information or to check for a resolution, please visit www.aap.org/coding." It *has been changed* to read "* *CPT* and the CMS are in conflict w/ regard to when prolonged services (99417) begin. We have presented the timing from *CPT* as part of this publication. CMS developed its own code (G2212) with its own time frame for reporting. For more information, please visit www.aap.org/coding or <https://services.aap.org/en/practice-management/2021-office-based-em-changes/prolonged-services>."

Please contact AAP Member and Customer Care at mcc@aap.org if you have any questions.

Thank you,
