- 4:50 p.m. Complications of Otitis Media
- 5:10 p.m. Otorrhea Following Surgery
- 5:30 p.m. Complications of Surgical Intervention
- 5:50 p.m. Final Thoughts and Questions from Audience
- 6:00 p.m. Adjourn

COURSE DESCRIPTION

Join us for the Section on Otolaryngology/Head and Neck Surgery's virtual course. The live webinar will take place on Tuesday, February 11 from 4-6pm CT. The recorded webinar will be available on PediaLink from Tuesday, February 25, 2025, through Wednesday, February 10, 2028.

Ear disease is one of the most common problems seen by the pediatrician, and treatments can vary with changing research. This course is designed for pediatricians, family physicians, and pediatric allied health professionals seeking to improve their knowledge of common and complex pediatric external and middle ear conditions.

Multiple forms of otitis media (including acute, serous, and mucoid) will be shown with different scenarios including children of different ages, with different signs and symptoms, and varying lengths of duration. The moderator will show pictures of middle ear disease and its complications, and expert panelists will discuss what they see in the images and what they believe is appropriate treatment. The risks and benefits of different approaches will be discussed. Audience will be able to ask questions that the moderator and expert panelists can answer during the event.

COURSE FACULTY

Moderator:
John McClay, MD, FAAP

Expert Panel:
Anita Jeyakumar, MD, MS, FAAP
Mona Doss Roberts, DO, MA, FAAP
Eileen Raynor, MD, FAAP

REGISTRATION FEES

Member: \$49
Non-member: \$89
Trainee (Medical Student, Resident, Fellowship): \$0
